

Xue Lan
Executive Associate Dean
School of Public Policy and Management
Tsinghua University

Dr. Lan Xue is professor and Executive Associate Dean of School of Public Policy and Management and Executive Vice President of the Development Research Academy for the 21st Century at Tsinghua University. He is also an adjunct professor at Carnegie Mellon University and a Fellow of IC2 Institute at University of Texas, Austin. His teaching and research interests include public policy analysis and management, science and technology policy, and crisis management.

Dr. Xue holds a Ph.D. in Engineering and Public Policy from Carnegie Mellon University and taught at the George Washington University in the U.S. before returning back to China in 1996. He has served as a policy advisor for many Chinese government agencies and has consulted for the World Bank, APEC, IDRC and other International organizations. He is a recipient of 2001 National Distinguished Young Scientist Award. He currently serves as a Vice President of China Association of Public Administration, Vice President of Chinese Association of Science of Science and S&T Policy, Deputy Secretary General of the National Steering Committee for MPA Education, member of the Policy Committee on Developing Countries, International Council for Science Unions, Advisory member of Research On Knowledge Systems, IDRC, and others. He is on the Board of SciDev.Net, an international non-profit organization aimed at promoting S&T for international development.
